Look for the daffodil flag at the gate. Drive in and park amongst the flowers.

FROM THE PRESIDENT

Spring is in the air early this year. I noticed a number of my flowering trees opening early and several perennials coming through the ground early. Lets hope we don't have too many late frosts.

Recent activities include our varied All About Gardening meetings (averaging approximately 85 people), four Fruit Pruning Workshops at various schools and the final in our Winter Speaker Series - the M J Barnett Memorial Address. All great activities.

The M J Barnett address was given by Jason Butt and titled, **"Don't Panic!** It's Only Nature". Jason covered a range of topics regarding how natural re-vegetation techniques provide a sign post to how we might undertake re-vegetation projects in different ways, providing not only homes for native plants but for a wide range of native animal and insect species. Thank-you to all Members who attended this extremely well presented and entertaining address. Please keep watch for information about coming events in our newsletters, emails and Facebook page.

Just a note, 839 people like our Facebook page. *Alan Jolliffe, CHS President*

YOUNGL YATES 2018 BUDDING YOUNGL YOUNG GARDENER

CALLING ALL YOUNG GREEN THUMBS

Growing a love of gardening and all things outdoors is behind the inaugural Yates Budding Young Gardener 2018 competition.

A national search is on for young gardeners, aged 5-15 years, who love getting into the garden. The lucky winner will become a Yates ambassador for one year and win an amazing family trip to Australia.

Seven regional winners will be selected by the judges and they will win a massive Yates Budding Young Gardener Hamper valued at over \$300. They will also go through to the final with the grand winner being chosen through a public voting system and will be off to Queensland with their family.

Keen gardeners aged 5-15 years can enter by going directly to *www.yates.co.nz/budding-young-gardener* and completing the entry form and

uploading a short video about themselves and their garden.

Entries close 17 September 2018

NATIONAL GARDENING WEEK *is back*!

Our Monarch Butterfly is under threat and this National Gardening Week Kiwis are being called upon to plant butterfly friendly plants to help save the caterpillars when they hatch in Spring and Summer, and provide nectar for butterflies.

Yates is getting behind the drive to avert a similar crisis this year by giving away various free butterfly friendly seeds including Yates new Butterfly Field Mix seeds between **1st and 14th October**.

Just register online during this time to receive your seeds. *www.yates.co.nz/nationalgardeningweek*

NEWS FROM FACEBOOK

HortTalk Discussion

Meili Duan shared a picture of this interesting fruit Claude McKavanagh said: That looks a very nice fruit Meili, what country does it come from ?

David Adams commented: Hi Meili, I know nothing about this plant. Please tell me more. Is the fruit for eating or just ornamental? If it is edible is it available in NZ and would you eat it cooked or raw?

Its common name is Calcium Fruit in China It

contains various mineral elements beneficial to the human body, especially the content of calcium is higher than that of ordinary fruits. It comes from China. There are many different varieties. It is fruit. It can be made into wine and snacks.

Mary Brown was after help identifying these plants seen on a trip to Taranaki Rachel Vogan posted: vireya Rhododendron

MONTHLY TIPS & TASKS with Michael Coulter

This month is when Spring really begins to get going! Plants come into leaf, grass starts growing and so do many of the pests that attack our garden. Winter clean up should be completed and gardens prepared for planting and seed sowing.

We've not had a lot of rain lately so the soil is in a good condition for digging to get a good tilth for seed sowing and planting.

Many of my fruit trees are in blossom two weeks earlier than usual so I'm hoping for a good fruit set. Late frosts are always a possibility so it will pay not to get too keen to with planting even though temperatures are rising.

Vegetable Garden

- 1. Do final copper sprays on fruit trees before trees are in bloom.
- 2. Dig over soil and incorporate compost and fertilisers ready

for planting and sowing.

- 3. Sow tomato, pepper, chilli seeds inside.
- 4. Peas, onions, silver beet and beetroot can be sown outside.
- 5. Brassicas and lettuce plants may be planted.
- 6. Strawberries and other soft fruits may be planted but do keep them well weeded.
- 7. Pip and stone trees may be planted and existing trees fertilised.
- 8. Weed asparagus, garlic and broad beans.

Flower Garden

- 1. Complete rose pruning and prune Winter/Spring flowering shrubs as soon as they finish flowering.
- 2. Remove spent flowers on Spring

bulbs and fertilise with potash to encourage next season's flowers.

- Cut back perennials old flower stems and leaves and treat for slugs and snails.
- 4. Prepare soil for planting Summer annuals
- 5. Look for aphids on Spring flowering plants and remove old flowers to encourage more flowers.

Lawns

- 1. Catch grass when mowing at this time.
- 2. Apply first fertilisers and incorporate moss treatment if needed (sulphate of iron)
- 3. Repair any worn areas with topdressing or instant turf.
- 4. De-thatch by raking or using a machine.
- 5. Treat for weeds

Gail Scrivener is an experienced Tour Guide with over 30 years in the industry. Gail has led tours for the CHS to Thailand, Tasmania. Melbourne and Norfolk Island, as well as many in and around NZ.

Our full day tour in the Darfield and Hororata regions features three garden visits as well as a buffet lunch at Homebush and a talk on the history of the property.

Taradale Annette & Michael Millar

This semi-formal garden on a lifestyle property at Charing Cross was started approximately 18 years ago.

Larger trees and pittosporums form a sheltered background for natives, roses, rhododendrons and perennials. Winter roses and Spring bulbs are a feature as well as large lawns and manicured buxus and laurel hedging surrounding the garden. Morning tea will be served country style.

The Gums Helen & Graeme Loe

This country garden was developed 14 years ago. The gardens consist of a mixture of mature shrubs, rhododendrons, azaleas, camellias and hydrangeas, peonies. lavenders, trilliums, roses, wisteria, perennials and clematis varieties.

Terrace Station Kate & Richard Foster

This garden dates back to the 1850s and has strong formal design features from the Victorian era. It has adapted with a relaxed informality that suits the present hosts Richard and Kate.

Do not expect extreme neatness, but be prepared for surprises

when you spend time in this extensive woodland garden. It is a very restful and uncontrived place with mass planting of bulbs, perennials and herbaceous plants.

Notable features are the magnificent trees, vistas from one garden room to another and the effects of light and shade on the tree trunks.

WHAT'S COMING UP NEXT MONTH OCTOBER EVENTS

ALL ABOUT GARDENING

Mon 1 Oct 7pm & *Tue 2 Oct* 9.45am
